Dear Tony,

We are pleased to have the opportunity to support your application to the City of Springfield for the authority to transition your property into a bed and breakfast.

Since the opening of the Abraham Lincoln Presidential Library and Museum, Springfield has seen a marked increase in tourist activity. Many of those tourists come in contact with the Chamber office, and many are looking for options on overnight accommodations.

Your property has already had an impact on this community's cultural life. By becoming a bed and breakfast, The Pasfield House will make Springfield's tourism industry that much stronger.

Good luck with this endeavor, and thank you for the investment you've made in this community!

Sincerely,

Gary Plummer  
President/CEO
